

Visiesystemen: seminars portfolio

Van Assche Dylan

Master-ICT

Campus De Nayer (KU Leuven) 2018 - 2019

Seminar	Date	Location	Assigned time
Introductie EAVISE 3D onderzoek (Patrick Vandewalle)	05/10/2018 12u45 - 13u45	Campus De Nayer	1 hour
An application of logic-based methods to machine component design (Bram Aerts)	12/10/2018 12u45 - 13u45	Campus De Nayer	1 hour
Preserving privacy by checking how low can you go with deep (Timothy Callemeyn)	19/10/2018 12u45 - 13u45	Campus De Nayer	1 hour
Reconstruction of building interiors from cluttered pointclouds (Inge Coudron)	26/10/2018 12u45 - 13u45	Campus De Nayer	1 hour
Diamond re-identification (Dries Hulens)	09/11/2018 12u45 - 13u45	Campus De Nayer	1 hour
Hands-on seminar: Modern Software Development (ALTRAN)	15/11/2018 13u45 - 17u45	Campus De Nayer	3 hours
Optimizing deep learned object detection for industrial applications (Robin Schrijvers)	16/11/2018 12u45 - 13u45	Campus De Nayer	1 hour
Knowledge Base Paradigm Applied to School Timetabling and Other Scheduling Problems (Kylian Van Dessel)	23/11/2018 12u45 - 13u45	Campus De Nayer	1 hour
Quick and clean deep learning classifier improvements with SVMs (Floris De Feyter)	30/11/2018 12u45 - 13u45	Campus De Nayer	1 hour
Energy Imbalance Price Peak Prediction Using FFT-Features (Laurent Mertens)	07/12/2018 12u45 - 13u45	Campus De Nayer	1 hour
Low latency object detection with 16-bit float and 8-bit integer networks (Maarten Vandersteegen)	14/12/2018 12u45 - 13u45	Campus De Nayer	1 hour

FOSDEM 2019 in Brussels: see below	02/02/2019 10u00 - 23u00	ULB Campus du Solbosch	TBD
------------------------------------	--------------------------------	------------------------------	-----

FOSDEM 2019

TO DO: fill in all the talks and events we did at FOSDEM 2019 (Saturday ONLY)
